The Hidden Cost of Staying Small

You're Losing ₹2-5 Lakhs Every Month

Without a distribution system, you're trapped in retail mode—chasing hundreds of small customers when one dealer order could replace them all.

Why Most Manufacturers Stay Stuck:

- **No clear dealer onboarding system** — Random approach, inconsistent results
- **Wrong pricing structure** — Margins too thin, dealers lose interest
- **Cash flow nightmares** — Small orders, constant payment chasing
- **Geographic limits** — Can't reach tier 2, tier 3 cities with huge demand
- **No credit terms strategy** — Scared away serious dealers demanding 30-60 days
- **Missing documentation** — Verbal agreements lead to disputes, losses

Hard truth: While you sell ₹1,000 orders one by one, competitors with dealer networks are closing ₹5 lakh bulk deals.
