Why 60% of Food Businesses Fail in Year One

The Silent Profit Killers

Hidden costs you never calculated:

- Packaging, delivery, wastage eating margins
- Wrong pricing—too low or blindly high
- No systems—running on memory, losing track
- Panic pricing changes confusing customers

₹25,000–₹2 lakh

Monthly losses without proper costing systems

The biggest danger isn't failure... it's repeating the same costly mistakes every season.

You cannot price by guessing. You cannot copy competitors blindly. You cannot survive without knowing your exact break-even point.

- 📌 Most owners are great cooks but poor business managers. This tool fixes that gap.

The Shortcut System Smart Entrepreneurs Use

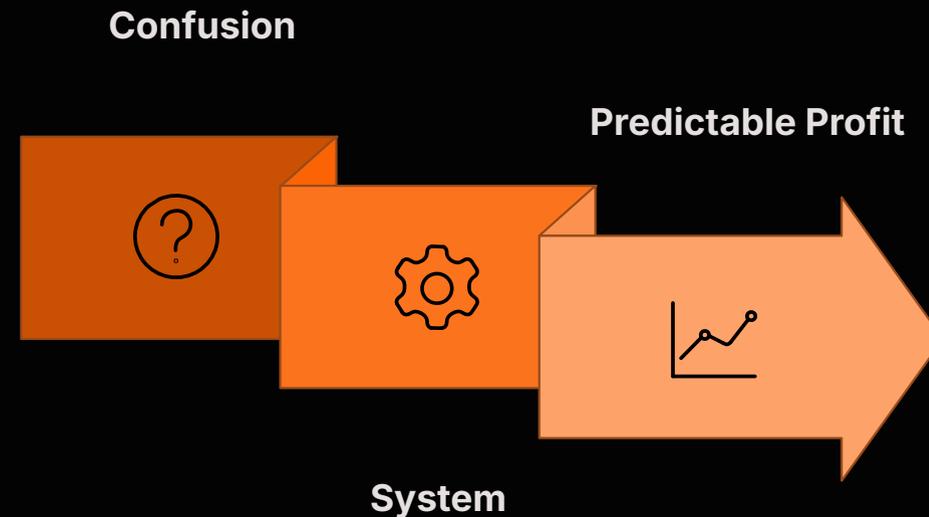

From Confusion → Execution

This isn't theory. This is a **plug-and-play system** battle-tested by Indian food businesses—from home kitchens to cloud kitchens to QSR outlets.
