The Hidden Cost of Bad Hiring

You're Losing Money Right Now

₹25,000–₹2 lakh per month wasted on wrong hires, poor training, and operational chaos.

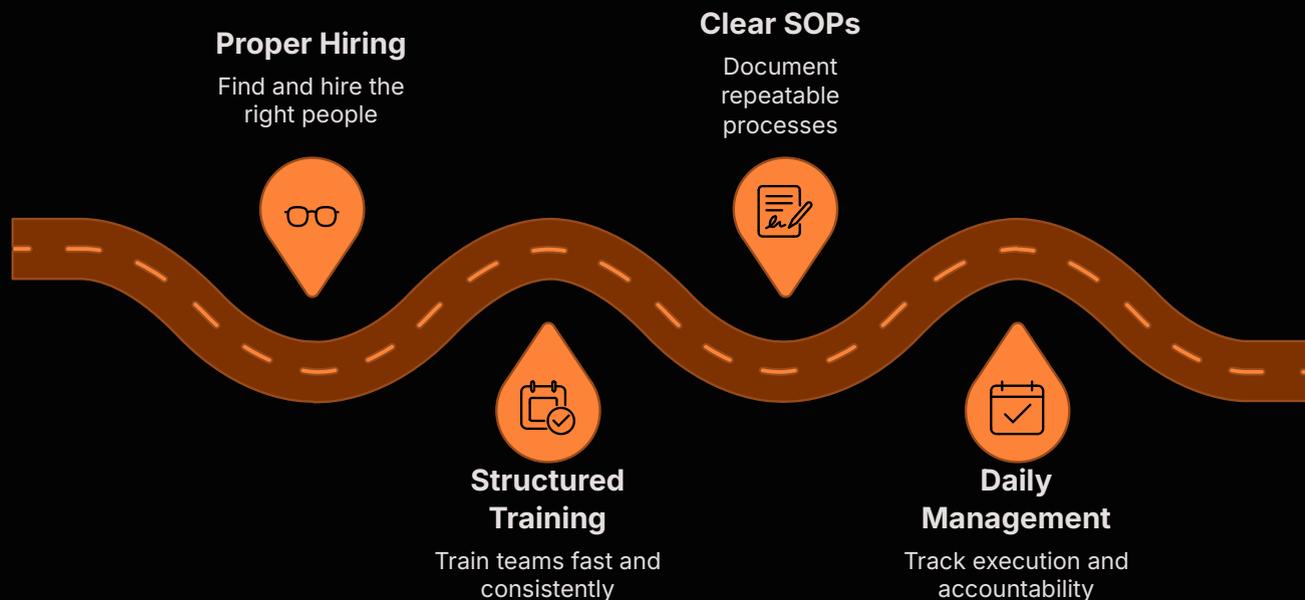

Every day without systems = customers lost to competitors forever.

Why Most Service Businesses Fail

- **High turnover:** Staff quits in 2-3 months, cycle repeats
- **Inconsistent quality:** Service depends on who's working
- **Training nightmare:** Weeks invested, then they leave
- **Owner dependency:** Business stops when you're away
- **No systems:** Running on memory and guesswork
- **Wrong hires:** Gut feeling over proper screening

The biggest danger isn't failure—it's repeating the same mistakes every month.
