Why Most Indian Businesses Waste Lakhs on Online Marketing

Every month, thousands of Indian entrepreneurs burn through ad budgets without seeing results. The problem isn't the platforms—it's the missing system.

No Clear Path
Sending traffic to homepage instead of focused landing pages

Zero Follow-Up
Visitors leave without capturing contact details
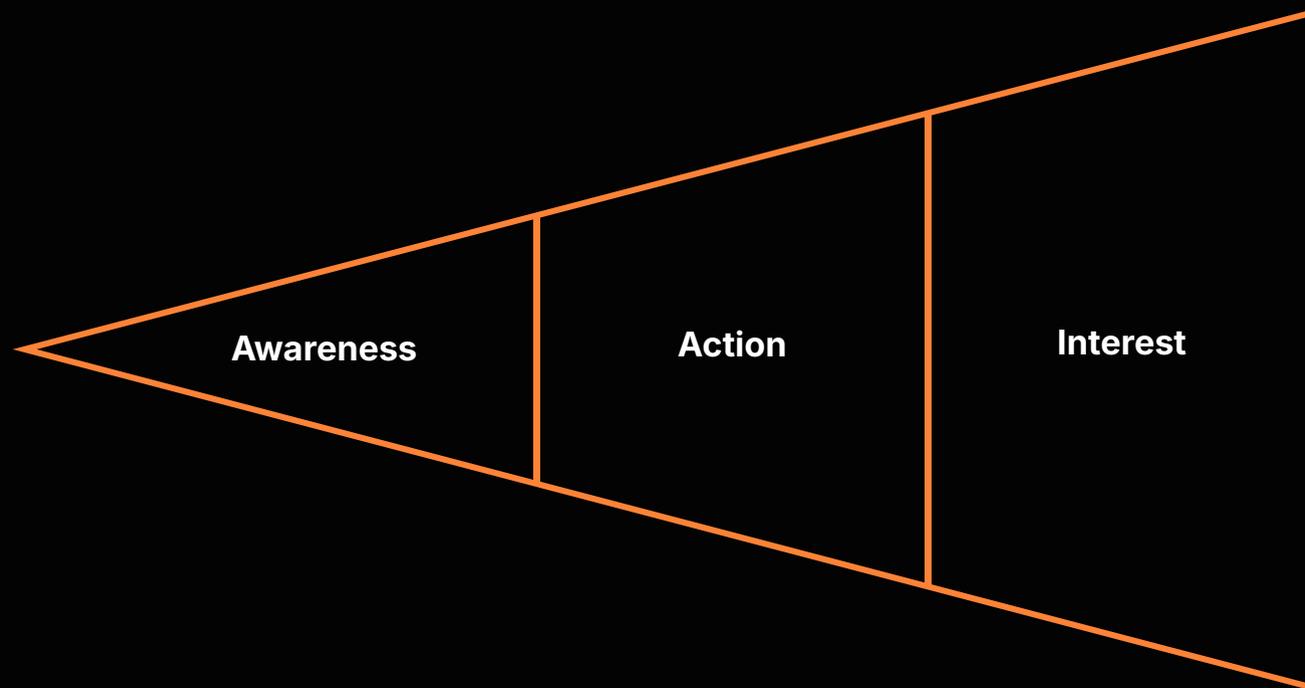

Copy-Paste Templates
Using Western strategies that ignore Indian buying behavior

Tech Overwhelm
Drowning in jargon without understanding the basics

Hidden Cost: Without a proper funnel system, you're losing ₹25,000–₹2 lakh per month in wasted ad spend and missed conversions.
